Batteries Plus

- Phone/tablet/computer repair
- Key fob cutting & programming

EDUCATION

Expected graduation May 2026

Bachelor in Computer Science Candidate

University of North Florida

HONORABLE MENTIONS

Minor in Business Management

Dean's List

PROJECTS

Systems Programming - C Assembler & Driver I Fall 2024

- Developed the first and second pass of an assembler on a SIC machine. Generated a symbol table and object file, allowing us to build a connected driver.

GUI - Weather App I Spring 2025

- Developed a Java Swing weather application using APIs and JUnit testing with features including dark/light mode, auto-suggest search, unit conversion, and dynamic visuals

In House Server - Site migration I 2025

- Migrated company websites from external hosting to an in-house server by restoring backups, deploying sites, and updating DNS records to redirect production traffic.

Smart Sites - Automated AI Website Creation I 2026

- Developed an automated pipeline using forms, n8n, and OpenAI APIs to process user inputs and generate AI-built websites with minimal manual setup
